Your Account

Creating your iHeat Account

The screenshot shows the registration screen of the iHeat Control app. At the top, there is a red header with a back arrow and the text "iHeat Control". Below the header, the screen is divided into several sections: "Email" with a text input field containing "Type your email"; "Password" with a text input field containing "Type your password" and a toggle icon; "Confirm Password" with a text input field containing "Confirm Password" and a toggle icon; and a checkbox labeled "By registering, I accept the Terms and Conditions and Privacy Policy". At the bottom, there is a blue button labeled "SIGN UP". The background of the app is a blurred image of green trees.

Once you have downloaded the iHeat App, create your account by following the steps on the screen

“Create your account”

Once you have created your account, this screen will appear.

“Verify your account”

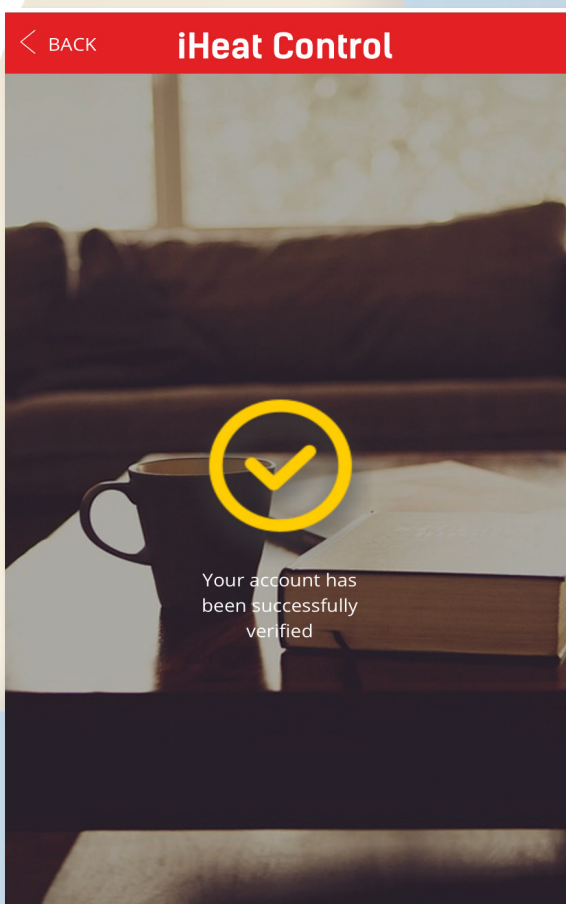

Now head over to the email address you have registered with, and verify your account.

Click the link you will find in your inbox as seen above.

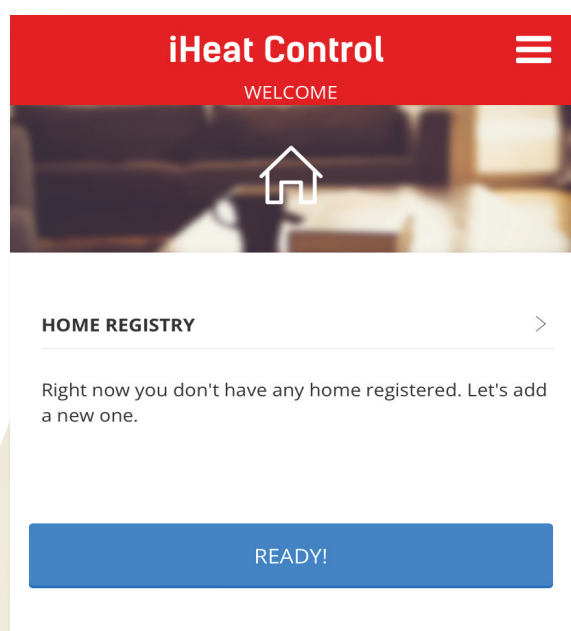

“You’re all set”

Once you see this message open in your browser, re-enter the iHeat App

Name it

Setting up your network

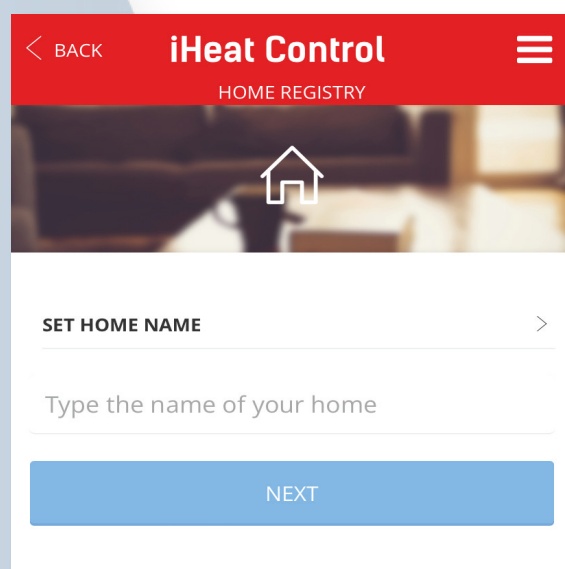

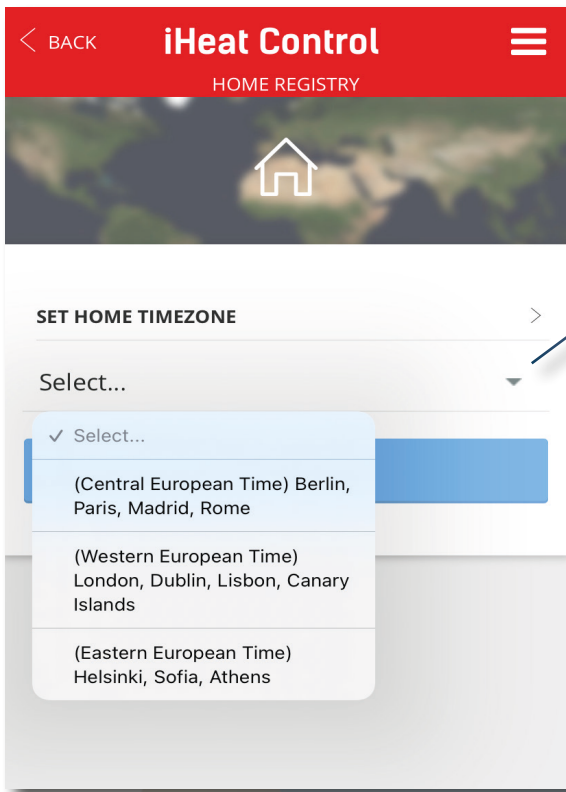

Register and label the network

“Click Ready”

Enter the name you wish to give your network.

“Click Next”

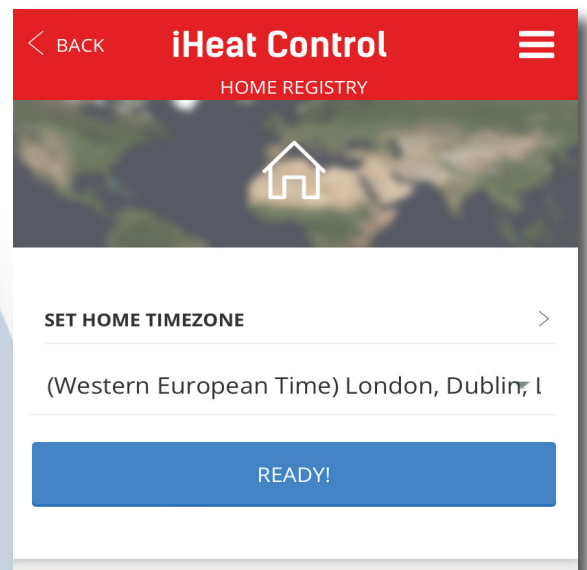

Select your time zone from the drop down menu, by clicking the small triangle

“Choose your timezone”

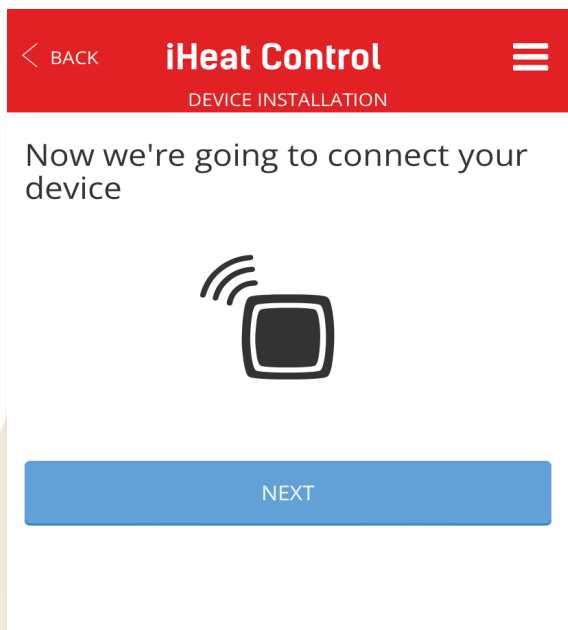

Once you have chosen your timezone, it will appear like this.

“Then Click Ready”

USB Hub

Setting up the USB Hub

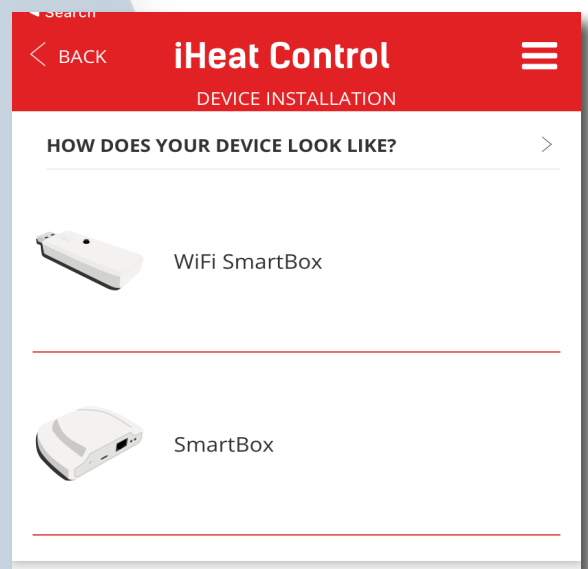

Let's connect your USB hub to your WI-FI network

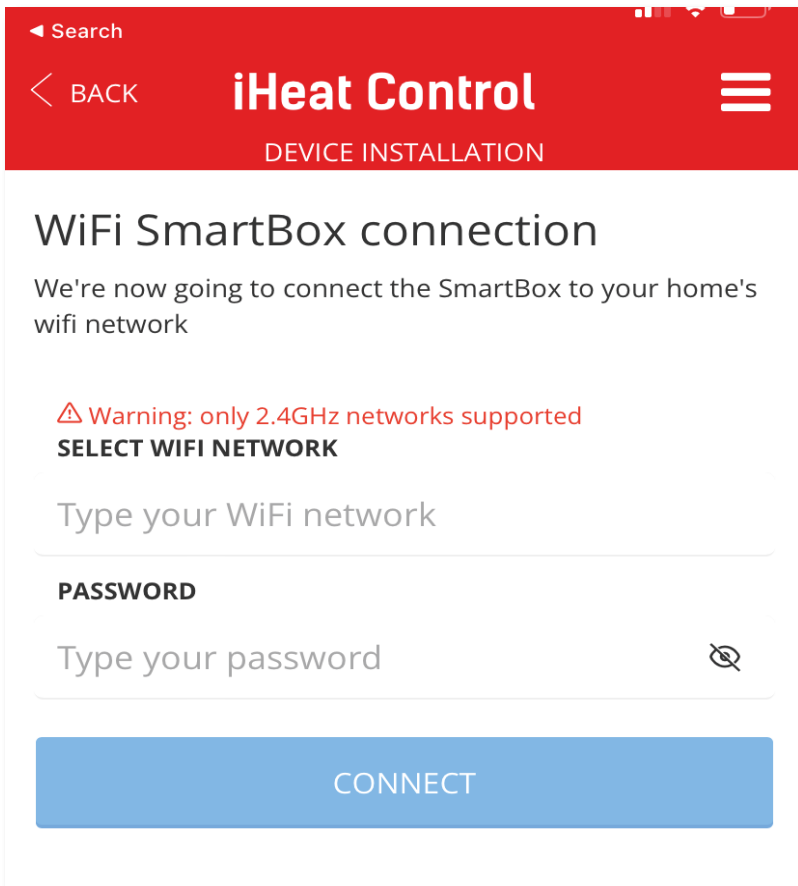

“Cick Next”

Do not plug your USB multilink in yet

Select your network Device from the listed options

“What does it look like?”

Locate your network information (this is usually found on the back of your WI-FI router)

“Check your WI-FI Router”

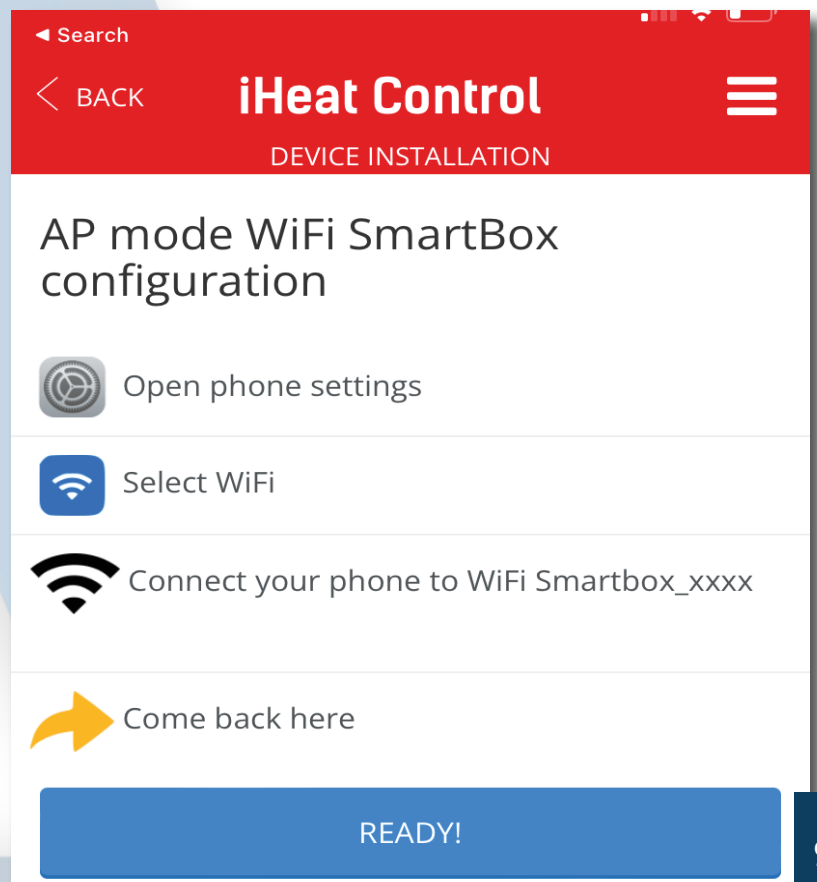

Input your network information as requested

Step 1 - Leave the iHeat app and open the “settings app” on your device

Step 2 - From your settings menu access your “WI-FI Menu”.

Step 3 - Select the WI-FI network that starts with “WI-FI Smartbox_***”.**

Step 4 - Once it has connected “return to the iHeat app”.
