

Ascot® WF Digital Radiators (Fluid Technical)

Aluminium thermal emitter, with high density heat transfer fluid. It is characterised by thermal inertia and homogenous distribution of temperatures.

Product Specifications

- Large format LCD screen
- Indication of ambient and set point temperatures
- PID proportional regulation system that product an optimal performance
- Pre-set programming features (9 pre-programs & 4 customisable programs)
- Advance activation system through intelligent technology (ITCS)
- Open Window sensors function
- Comfort, economic and anti-frost mode
- Anti-scolding function
- Consumed energy meter (Last 24h, 7 days & 30 days)
- IP2X
- Aluminium cast body (Made in Spain)
- Silent thermo-start: Regulated by Triac
- Electronic PCB (Made in France)
- Safety thermal limiter
- Security control locking feature
- Voltage 220-240V. Frequency 506-60Hz.
- 10 year body warranty, 2 year electronics
- RoHS Compliant
- Fully LOT20 Compliant
- Integral thermostat accuratet 0.1 degrees

Product Sizes & Weights

Power (W)	Width (mm)	Hight (mm)	Depth (mm)	Elements	Weight (KG)
500	335	575	95	3	7
1000	575	575	95	6	12.5
1500	815	575	95	9	17.7
1800	975	575	95	11	21.3
