

## Ascot® Digital Panel Heater (Dry Heating Technical)

Made from high grade steel with aluminium resistance with a clean modern aesthetic and suitable for most types of spaces. Control located at the top of the unit for ease of use. Fully LOT20 Compliant.

### Product Specifications

- Large format LCD screen
- Programmable electric thermostat
- NTC Temperature sensor with precision of 0.1°C
- PID proportional regulation system that product an optimal performance
- Supplied with fixing brackets
- 1.5 meter power cable with 13A plug
- Open Window sensors function
- Comfort, economic and anti-frost mode
- IP2X
- Aluminium cast element (Made in Spain)
- Silent thermo-start: Regulated by Triac
- Electronic PCB (Made in France)
- Safety thermal limiter

- RoHS Compliant
- Fully LOT20 Compliant
- Integral thermostat accurate 0.1 degrees
- Security control locking feature
- Voltage 220-240V. Frequency 506-60Hz.
- 5 year body warranty, 2 year electronics

### Product Sizes & Weights

Power (W)	Width (mm)	Hight (mm)	Depth (mm)	Intensity (A)	Weight (KG)
600	425	452	75	2.6	4.1
1200	625	452	75	5.2	6.1
1500	725	452	75	6.5	6.5
2000	1058	452	75	8.9	8.7
